

REAL WORLD TESTING RESULTS REPORT

GENERAL INFORMATION

Plan Report ID Number: MDC[]20221213doc

Developer Name: **Vision Infonet Inc**

Product Name(s): **MDCare EMR/PMS**

Version Number(s): **5.0**

Certified Health IT Product List (CHPL) Product Number(s): **15.04.04.2872.MDCa.05.00.1.180312**

CHANGES TO ORIGINAL PLAN

Summary of Change	Reason	Impact
N/A	N/A	N/A

SUMMARY OF TESTING METHODS AND KEY FINDINGS

Real World Testing in MDCare EMR/PMS included three settings which were a representative of the certified functionality to demonstrate the success of the interoperability criteria. The settings included for the Real World Testing were Internal Medicine and Primary Care, as most of the Interoperability scenarios could be tested on these specialty Practices.

All the ONC certified criteria were made available to all of the MDCare EMR/PMS Clients from the beginning of the year. Trainings were given to staff of the practices on the steps to use the certified features in MDCare and also conducted Real World Testing awareness meetings. Real world testing Logs, follow-ups with the providers were utilized to determine how often providers use the functions under test for the purposes of Real World testing including any challenges the practices may face.

The Real World Testing findings were mixed as some of the criteria were heavily used and others were rarely or not at all used by some practices. The criteria which were less frequently used or not at all used may require further training to facilitate providers for adoption.

STANDARDS UPDATES (INCLUDING STANDARDS VERSION ADVANCEMENT PROCESS (SVAP) AND UNITED STATES CORE DATA FOR INTEROPERABILITY (USCDI))

- Yes, I have products certified with voluntary SVAP or USCDI standards. (If yes, please complete the table below.)
- No, none of my products include these voluntary standards.

Standard (and version)	
Updated certification criteria and associated product	
CHPL Product Number	
Conformance measure	

Care Setting(s)

'Ambulatory' care settings including Primary Care and Internal Medicine practices were tested.

Metrics and Outcomes

Measurement/Metric	Associated Criterion(a)	Relied Upon Software (if applicable)	Outcomes	Challenges Encountered (if applicable)
Generate Transitions of Care Document and Send through Direct Message	§170.315(b)(1) Transitions of care & §170.315(h)(1) Direct Project	MaxMD Direct API MaxMD Direct mdEmail	3/3	
Data Export for Single and Multiple Patients	§170.315(b)(6) Data Export		<u>Data Export Single Patient:</u> Denominator: 26 Numerator: 26 <u>Scheduled automated Data Export:</u> Denominator: 0 Numerator: 0	
Record ,Export and Report	§170.315(c)(1) Record and Export §170.315(c)(3) Report		Performed the tasks during Mar-Jun 2022 with the testing group. Over 95% could perform the tasks in less than 10-15 minutes	

Reportable laboratory tests and value/results	§170.315(f)(3) lab test and value/results		15/15	
Application Access	§ 170.315(g)(7) Application access—patient selection § 170.315(g)(8) Application access—data category request § 170.315(g)(9) Application access—all data request		Active API interfaces is 0. This measure is applicable to all our targeted practice settings as the API capabilities work the same for all sites. Because this feature is not regularly used by our clients, we have tested this capability in production system by creating test patients. This method has verified that certified functionality is working for end users.	

KEY MILESTONES

Key Milestone	Care Setting	Date/Timeframe
RWT Plan publication to CHPL	Internal Medicine Primary Care practice Other Specialties	Dec 2021
RWT Prepare Project Plan	Internal Medicine Primary Care practice Other Specialties	Jan 2022-Feb2022
RWT – Testing and Outcomes documentation	Internal Medicine Primary Care practice Other Specialties	Mar 2022-June 2022
RWT results aggregation	Internal Medicine Primary Care practice Other Specialties	July 2022-Dec 2022
RWT Results submission to Drummond for publication	Internal Medicine Primary Care practice Other Specialties	January 2023

ATTESTATION

This Real World Testing report is complete with all required elements, including measures that address all certification criteria and care settings. All information in this report is up to date and fully addresses the health IT developer's Real World Testing & Reporting requirements
